
Hải Nguyễn

Software Engineer

Phone: 0932169055

Email: nthai0932169055@gmail.com

Website: https://haigh-space.github.io/me

Address: Thu Duc, Ho Chi Minh City

OBJECTIVE

Short-term: Leverage my technical skills in Java, Spring Boot, and React to deliver high-quality software solutions and contribute effectively to team projects.
Long-term: Evolve into a Full-stack Developer specialized in system architecture while continuing to impact the open-source community

EDUCATION

2021 - *2025*

Nong Lam University

Bachelor of Engineering in Information Technology

GPA: 3.0/4.0

Relevant Coursework: Strong foundation in Object-Oriented Programming (OOP), Design Patterns, Data Structures, and Algorithms.

TECHNICAL SKILLS

Languages	Proficient in Java, Kotlin, JavaScript; familiar with Python.
Frontend	ReactJS, Next.js, Shadcn UI, Zustand, SASS, i18n.
Backend	Spring Boot (JWT, PayPal integration), NestJS, Hono, Node.js.
Databases & Tools	MySQL, MongoDB, Git, Jira, WebSockets.
CS Fundamentals	Strong understanding of OOP, Design Patterns, Data Structures, and Algorithms.
Methodologies	Experienced in Agile/Scrum environments.

WORK EXPERIENCE

Oct 2025 - Jan 2026

TMA Solutions

Web Developer Intern

- **Agent4PM Project (Full-stack):**
  - Developed core features, including **User Management** and **Role-based Access Control (RBAC)**, using **React (Shadcn UI)**, **MongoDB**, and **WebSockets**
  - Collaborated effectively in an **Agile/Scrum** environment, utilizing **Jira** and **Git** for workflow and version control.
  - Delivered assigned features **one week ahead of schedule**, ensuring high-quality testing and refinement.
- **Teledeaf Project (Frontend)**:
  - Built **responsive user interfaces** using **ReactJS** and **SASS**, translating design concepts into functional code.
  - Participated in **code reviews** and maintained high **code quality standards**.

PROJECTS

March 2025 - May 2025

E-commerce Platform

Contributor

- **Backend:** Developed secure **RESTful APIs** using **Spring Boot**, implementing **JWT authentication**, pagination, and **PayPal** payment gateway integration.
- **Frontend:** Built a high-performance UI with **Next.js**, utilizing **Zustand** for state management and **i18n** for multi-language support.
- **User Experience:** Leveraged **Shadcn UI** for pre-built components and implemented **real-time interactions** to enhance user engagement.
- **Database:** Designed and managed the relational database using **MySQL.**
- **Source Code:** https://github.com/E-Commerce-O/Main-Project

ACTIVITIES

July 2024 - December 2024

CloudStream

Open Source Contributor

- Contributed to a privacy-focused, ad-free, and tracking-free multimedia streaming application.
- Developed and maintained specialized **movie source plugins** specifically tailored for Vietnamese users.
- Ensured seamless content integration while adhering to the project's high standards for performance and user privacy.
